

AMENDMENTS TO THE SPECIFICATION

Please replace the paragraph following "CROSS-REFERENCE TO RELATED APPLICATIONS" with the following amended paragraph:

This application ~~claims priority to~~ is a continuation of U.S. Patent Application No. 09/387,444, filed August 31, 1999, which is incorporated herein by reference.

Please replace the paragraph beginning at line 23 on page 4 of the Application as filed with the following amended paragraph:

[0012] In accordance with the present invention, secure web-based messaging according to a "push" paradigm is augmented by specific, intended recipient authentication. In particular, a document can be sent to a specified, intended recipient through the Web using e-mail recipient notification, and the recipient is authenticated prior to delivering the document to the recipient. Such authentication prevents a cracker from snooping a delivery notification e-mail message and retrieving the document prior to retrieval by the true intended recipient. In addition, such authentication of the recipient is driven by the sender such that prior participation by the recipient in the messaging system according to the present invention is not required.
